

Comparing the *Puget Sound Water Quality Management Plan's* Stormwater Program, the Draft Tri-County 4(d) Stormwater Proposal, and the U.S. Environmental Protection Agency's NPDES¹ Phase II Program

PS Plan Element Reference	Puget Sound Management Plan Stormwater Program Elements	Draft Tri-County 4(d) Stormwater Proposal	EPA's NPDES Phase II Program
SW-1.1	Land use Planning	X	Required under GMA
SW-1.2 (a)	Standards for New Development and Redevelopment	X	X
(b)	Stormwater Site Plan Review	X	X
(c)	Inspections of Construction Sites	X	X
(d)	Maintenance of Permanent Facilities	X	X
(e)	Source Control	X	X
(f)	Illicit Discharge Elimination and Water Quality Response	X	X
(g)	Identification & Ranking of Problems	X	
(h)	Public Education & Involvement	X	X
(i)	Low Impact Development Practices	X	Recommended
(j)	Watershed or Basin Planning	X	Funded by Ecology under Watershed Planning Act
(k)	Local Funding Capacity	X	
(l)	Programmatic & Environmental Monitoring	X	X (Evaluation & Reporting)
(m)	Schedule for Implementation	X	X

Note: Information regarding the Draft Tri-County 4(d) Stormwater Proposal is from the Tri-County biological Review Draft dated May 18, 2001, Volume 2, Chapter 3, Stormwater Management Model Program. As this is a draft proposal, it is subject to change. Consult the program web page for the most current information:
